## 200 BATH ROAD, LONDON

---

PROJECT | New European headquarters  
CLIENT | Research in Motion  
SIZE | 6,600m<sup>2</sup> (70,000sq.ft.)

### CHALLENGE

The client is expanding rapidly and requires a new European headquarters to move them forward in technical resilience and creating a modern environment with strong design solutions. Rapid delivery of the new offices is a key priority so CB Richard Ellis have been appointed as interior designers, quantity surveyor and services consultants enabling us to fast track all aspects of the project design development, which includes a significant technical room facility and a full canteen.

The project is currently in detailed design, and is due for completion in 2006.

### KEY ASPECTS

- All main consultancy services by CB Richard Ellis, to fast track the relocation.
- High technical resilience in services design
- Strong internal image and branding
