### Commentary:

The ICR is calculated on the basis of NOI as a ratio to gross loan interest payable on the securitised loan (The interest cost **EXCLUDES** any financial benefit / cost derived from Interest Rate hedging arrangements). The low interest rate environment that presently exists accounts for the elevated level of the ratios.

### Commentary

DSCR is calculated on the basis of NOI as ratio to Debt Service on securitised loan. (The interest cost **EXCLUDES** any financial benefit/cost relating to Interest Rate hedging arrangements). The low interest rate environment that presently exists accounts for the improvement in the ratios. The increase in ratio for Loan 5 is due to the lower debt service requirement following the maturity of the IRS in October 2013 and also the suspension of amortisation payments post maturity of the Loan (31/10/2013)

### Commentary

The increase in DSCR coverage ratios is due to the expiration of the SWAP in October 2013 and the suspension of amortisation post expiry of the Loan. All surplus rental income is being cash swept and retained on Deposit pending completion of the strategic review. Nemus II Investors continue to receive interest, interest payments to the B Lender have been suspended.

The Borrower failed to repay the Loan at Maturity on the 31st October 2013. The Special Servicer initially agreed a two month Standstill to allow discussions to continue with the Borrower on an agreed exit strategy, a further extension to the Standstill period to 31 July 2014 was agreed, this has now expired and a further extension is currently being considered. Discussions still continue with the Trustee representing the Borrower and with various other parties to seek a solution to progressing the remedial works required at the Property. These discussions are now well advanced including inviting tenders to undertake the works. However due to the sensitivity of the ongoing discussions it is not possible to release any further information to Investors at this stage. As soon as a strategy has been agreed details will be made available, this is now expected by the end of October 2014.
